Educational excellence for our City

Dear Parent / Carer,

There is evidence to suggest that pupils who own and use a Casio scientific calculator throughout their secondary education perform better on the calculator examination papers, compared to those that do not own a calculator. . This is due to two main reasons;

1. Casio calculators have unique functions that some other brands do not, making some calculator topics easier to access.
2. The majority of calculator use in class will be demonstrated using a Casio calculator.

We realise that Casio calculators are often more expensive compared to alternative brands, and therefore the maths department would like to offer a 'loan service' to your daughter. . By signing this letter, your child will be loaned a Casio calculator until they leave school, which they will then return. If they lose the calculator then the school may request a payment of £12, to cover the cost of the calculator, and to ensure we can continue to offer this service in future years.

Alternatively, if you would like to pay for the calculator through us at the discounted rate of £12, this could also be arranged.

I would like a calculator to be loaned to my daughter. If the calculator is lost or damaged before it is returned, I agree to pay £12 to cover its cost.

Signed:
